

Square & Rectangle

$$\text{Area} = L \times W$$

L = length

W = width

Example

Area = 90 feet x 50 feet

Area = 4,500 square feet

Example

Area A = 50' x 10' = 500 sq. ft.

Area B = 40' x 30' = 1200 sq. ft.

Area C = 50' x 10' = 500 sq. ft.

A + B + C = 2,200 sq. ft.
